## **Renewal Rule**

## Has your company reported to the HPCDS for Oregon before, but information submitted about a children's product has <u>not</u> changed?

If a manufacturer has included a children's product in a report for a previous reporting period and determines there is no change to the information for the product <u>except the number of units/items (i.e., Number of Bricks...)</u> <u>sold or offered for sale in Oregon</u> that was submitted in the previous notice, the manufacturer may renew the previous report for a subsequent period. A renewed report does not require payment of the \$250 per chemical fee. The manufacture must include the number of units/items of a Brick sold or offered for sale during the new reporting period.

This option is only available if all information reported in the previous report is valid except the number of units/items of a Brick sold or offered for sale. This option is available only for Oregon. To renew a report submitted for a previous reporting period, follow the steps below:

## Step 1e. Renew a Report Submitted to Oregon for a Previous Reporting Year

1. In the Published Reports section of your account, check the box next to the report that you would like to Renew for a new period. Then click the Renew for new period button above the Published Reports section to the right.

Once you have completed Step 1, click the Check Report button to identify any issues with your report that will prevent submission. Red text will appear above the table in your report that lists each warning. A red warning symbol appears next to the item(s) with issues in the table. You must resolve all errors before you can click Continue to Step 3. Payment: Oregon.

4. On the Step 3. Payment: Oregon screen, no payment is due. Complete step 3 by checking the checkbox to agree to the certification statement and clicking the Submit button.
