

## **IC2 Product Testing Workgroup Meeting Notes | June 25, 2025 at 3pm ET/ 12pm PT**

**Participants (10):** André Algazi, Mikalah Bailey, Sarah Briggs, Stephanie Frisch, Jennifer Harfmann, Mui Koltunov, Hannah McNeight, Nicole Orabora, Kelleigh Wasser, Nan Xie

### **Program updates**

- CA DTSC
  - MN having trouble finding commercial labs to do compliance testing for them
  - DTSC stepped in to see if their env. Chem lab (ECL) could collaborate with MN. It is potentially feasible, and they will continue to explore.
  - Method development needed around total organic fluorine testing. Currently ECL does total fluorine (vs. total organic) by combustion ion chromatography.
- NYSP2I
  - Worked with Eurofins for hair product testing. Had some issues with reporting limits.
  - Came across a TOF study for PFAS in food packaging that used F19 MMR
  - NMR paper on fluorine in food packaging samples:  
<https://pubs.acs.org/doi/10.1021/acs.analchem.3c04404>

**Presentation: Case Studies: DTSC's Environmental Chemistry Lab's (ECL) testing of two types of consumer products – Mui Koltunov & Nan Xie**
